4 STEPS TO YOUR DREAM KITCHEN

Connecting all the pieces

Planning Your Kitchen

Let us show you typical kitchen shapes to guide you, then the rest is up to you. What are your must haves and why are you buying a new kitchen? Take inspiration from our suggestions and ensure you've got everything covered.

p. 7 - 21

Choosing Your Kitchen

Your kitchen door is always visible so it's essential to choose wisely. Consider the finish, the colour and the style whilst remembering everyday maintenance practicalities as well as design.

p. 23 -213

Smart Storage

From contrasting or co-ordinating cabinet colours to clever storage that maximises your usage, what's behind the door is equally as important as the door itself.

p. 216-230

Final Pieces

Look beyond your furniture to accentuate the wow factor with clever lighting, design-lead handles, sinks, taps and worktops.

KITCHEN

KITCHEN LAYOUT

Your Jigsaw kitchen will be highly personal as you piece together everything we have to create your own look. The first step though is confirming your layout and understanding which works best for your home. We've illustrated the most common styles for you found within the UK, but if you're lucky enough to have a completely blank canvas then enjoy creating your own!

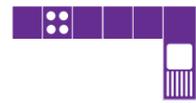

Linear

Used for compact kitchens, combine with clever storage solutions to maximise the space.

Galley

Works best for long narrow kitchens with everything within easy reach.

L-shape

The most common kitchen layout, leaving space to move around and possibly enough space for a dining table.

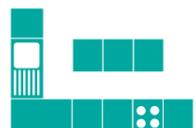

U-shape

Great for lots of storage space, use pull out corner units for easy access to all your pots and pans.

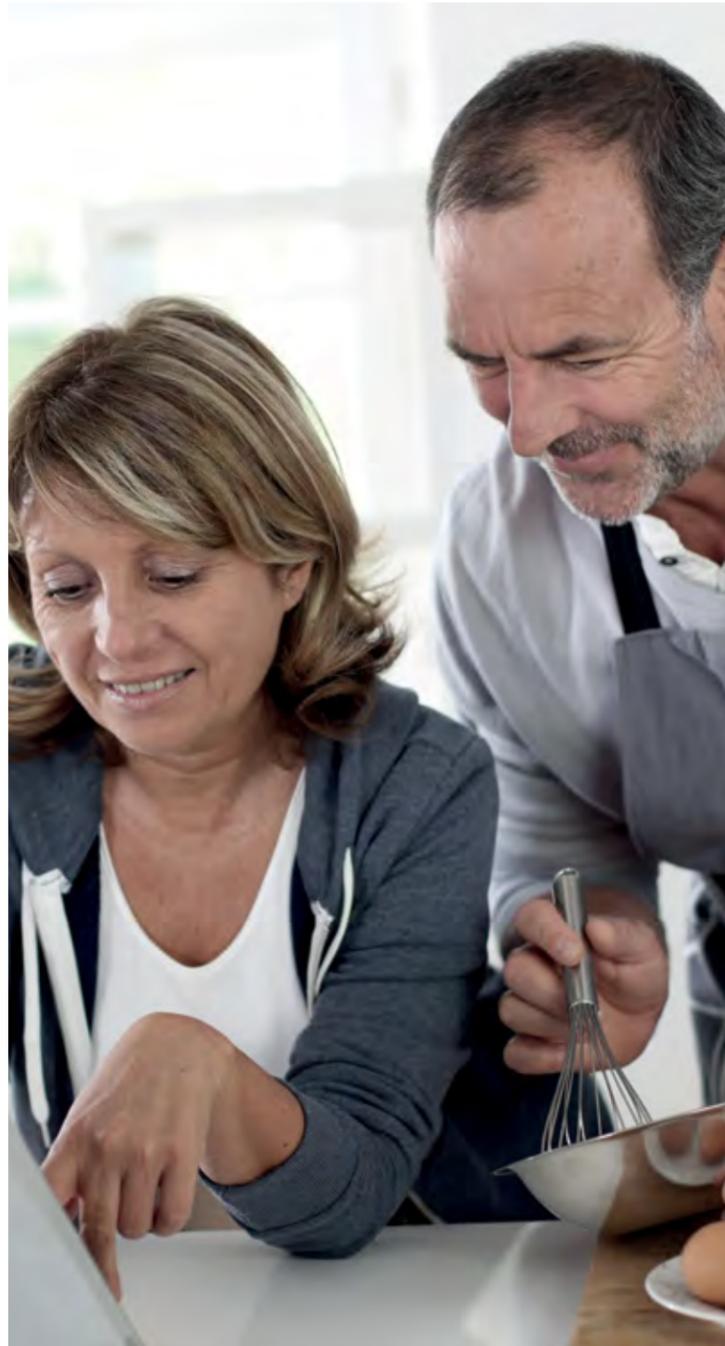

G-shape

Get additional storage and worktop space with a G-shaped kitchen, also ideal for creating a social centre point.

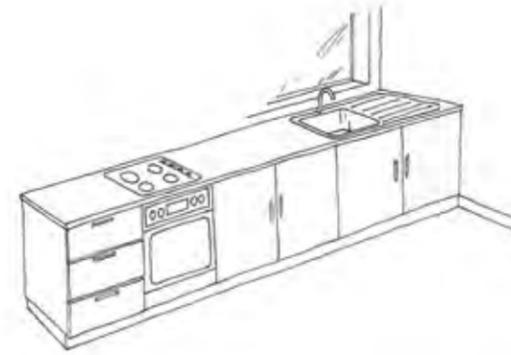

Island

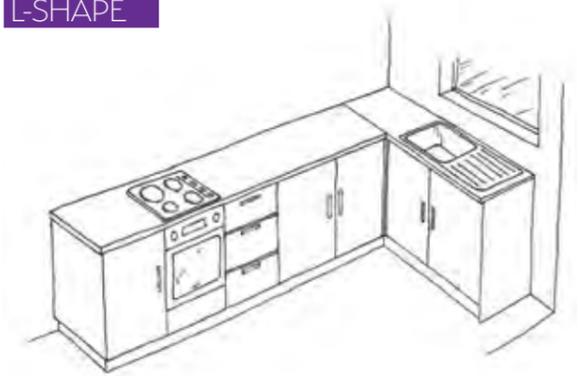

This desirable layout works well with large open plan kitchens, creating a flexible and social working space.

CABINET CHOICES

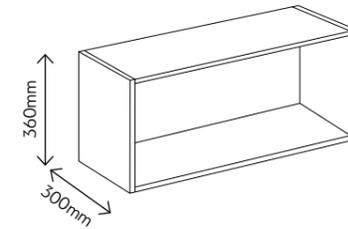

Cabinets are the foundation of a kitchen with multiple sizes and shapes now available to navigate around any room. Common cabinet dimensions are illustrated on the next page, while specifications are shown on page 217. We have 4 colour choices available for the standard cabinet and 3 colours for the Vero cabinets, meaning you can choose to co-ordinate or contrast with your door choice.

Colours

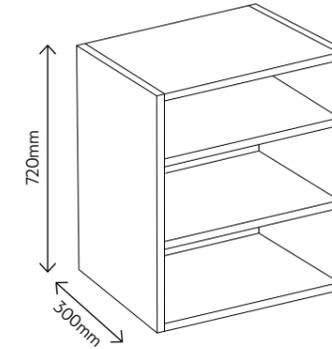

Dimensions

Dimensions for the most popular units.

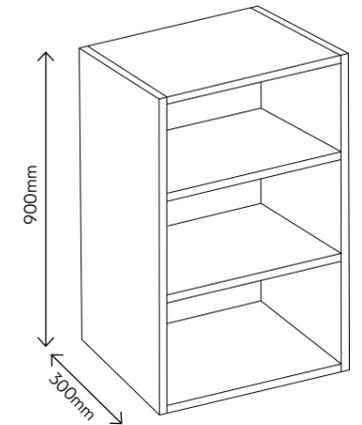

Bridging Units

Creates storage and frees up wall space in a stylish fashion.

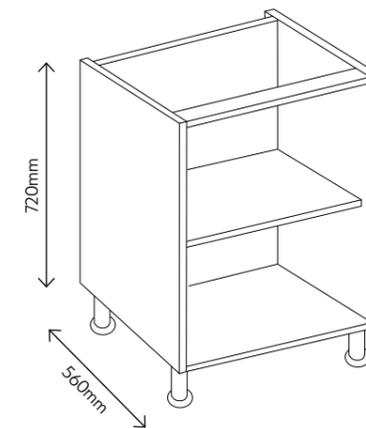

Wall Units

Conventional wall units are 720mm high with variable shelf positions to suit the different types of items you choose to store in them.

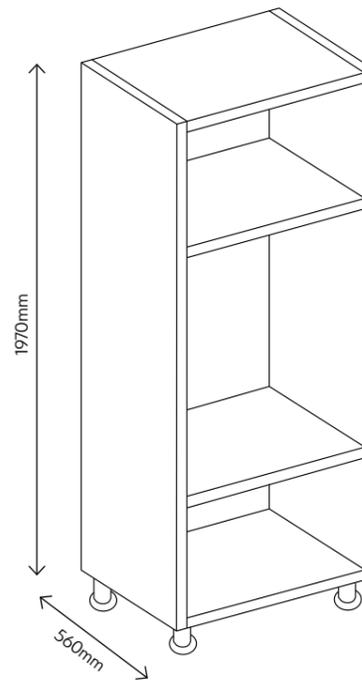

Tall Wall Units

Ideal for rooms with high ceilings, tall wall units provide extra storage capacity and a more bespoke aesthetic.

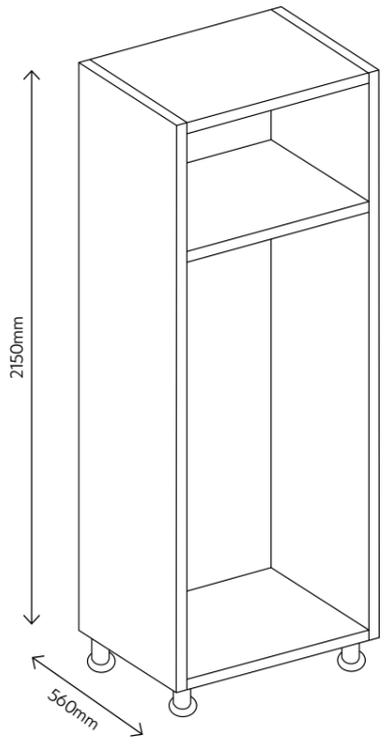

Base Units

Conventional base units have lots of size options plus internal and external curves for a rounded and flowing design.

Larder and Appliance Units

Make the most of ceiling heights with larder units or position appliances at a more ergonomically friendly height.

Extra Tall Larder & Appliance Units

The extra tall options are designed to co-ordinate with the tall wall units and achieve a streamlined look with additional storage.

VERO TRUE HANDLELESS RAIL SYSTEM

The Vero aluminium rail system creates a Germanic true handleless kitchen with a minimalist effect that's now hugely fashionable.

Door Ranges

Vero handleless rail system is available with the following door ranges:

VIVO+ MATT

x 5 colours

VIVO+ GLOSS

x 7 colours

The Beauty of Curves

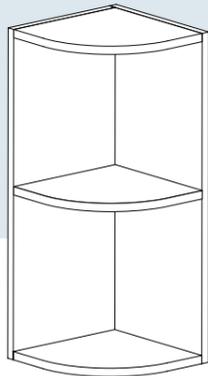

Curved kitchen design adds a new aesthetic to more traditional straight lines with internal and external curves often working in tandem. The tall external curves in Windsor and Cambridge create a feature area unrivalled in timber design and can now be replicated in most ranges.

External curves

Softens the outside corners of your kitchen creating a free flowing design.

Available as:

- Base units
- Wall units
- Tall units

Create a bespoke looking soft flowing kitchen with no sharp edges

DRAWER DESIGN

Drawers are an increasingly important part of the kitchen offering style and easy access. Jigsaw provides a multitude of sizes and configurations which are easily explained below:

Drawer Configurations

What drawer combination you choose might depend on how much space you've got available, what design you're after, or what you want to store in them. For example...

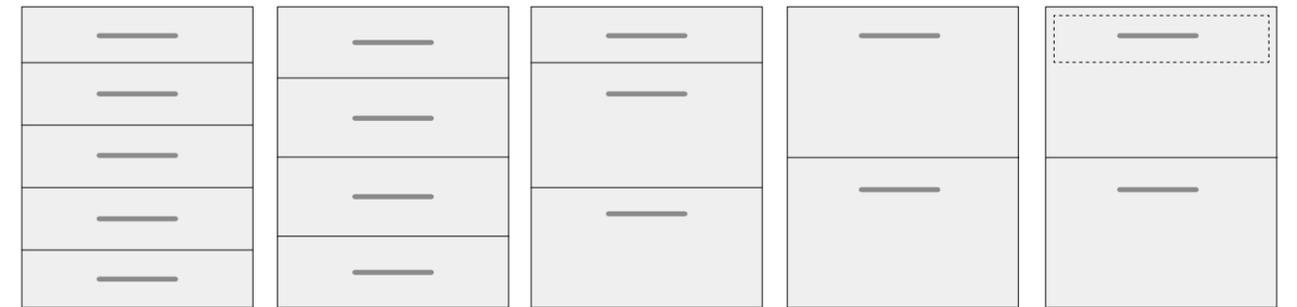

- Cutlery
- Utensils
- Pots and pans
- Plates and bowls
- Food
- Kitchen towels
- Cleaning products

Internal Drawers

Internal drawers are a great way of achieving a clean and linear look while still providing practical storage and easy access to your cutlery and utensils. The top drawer simply hides inside the deep drawer front, creating an uninterrupted and streamlined kitchen design.

Popular Drawer Configurations

5 shallow drawers

4 shallow drawers

1 shallow + 2 deep drawers

2 deep drawers

1 internal & 2 deep drawers

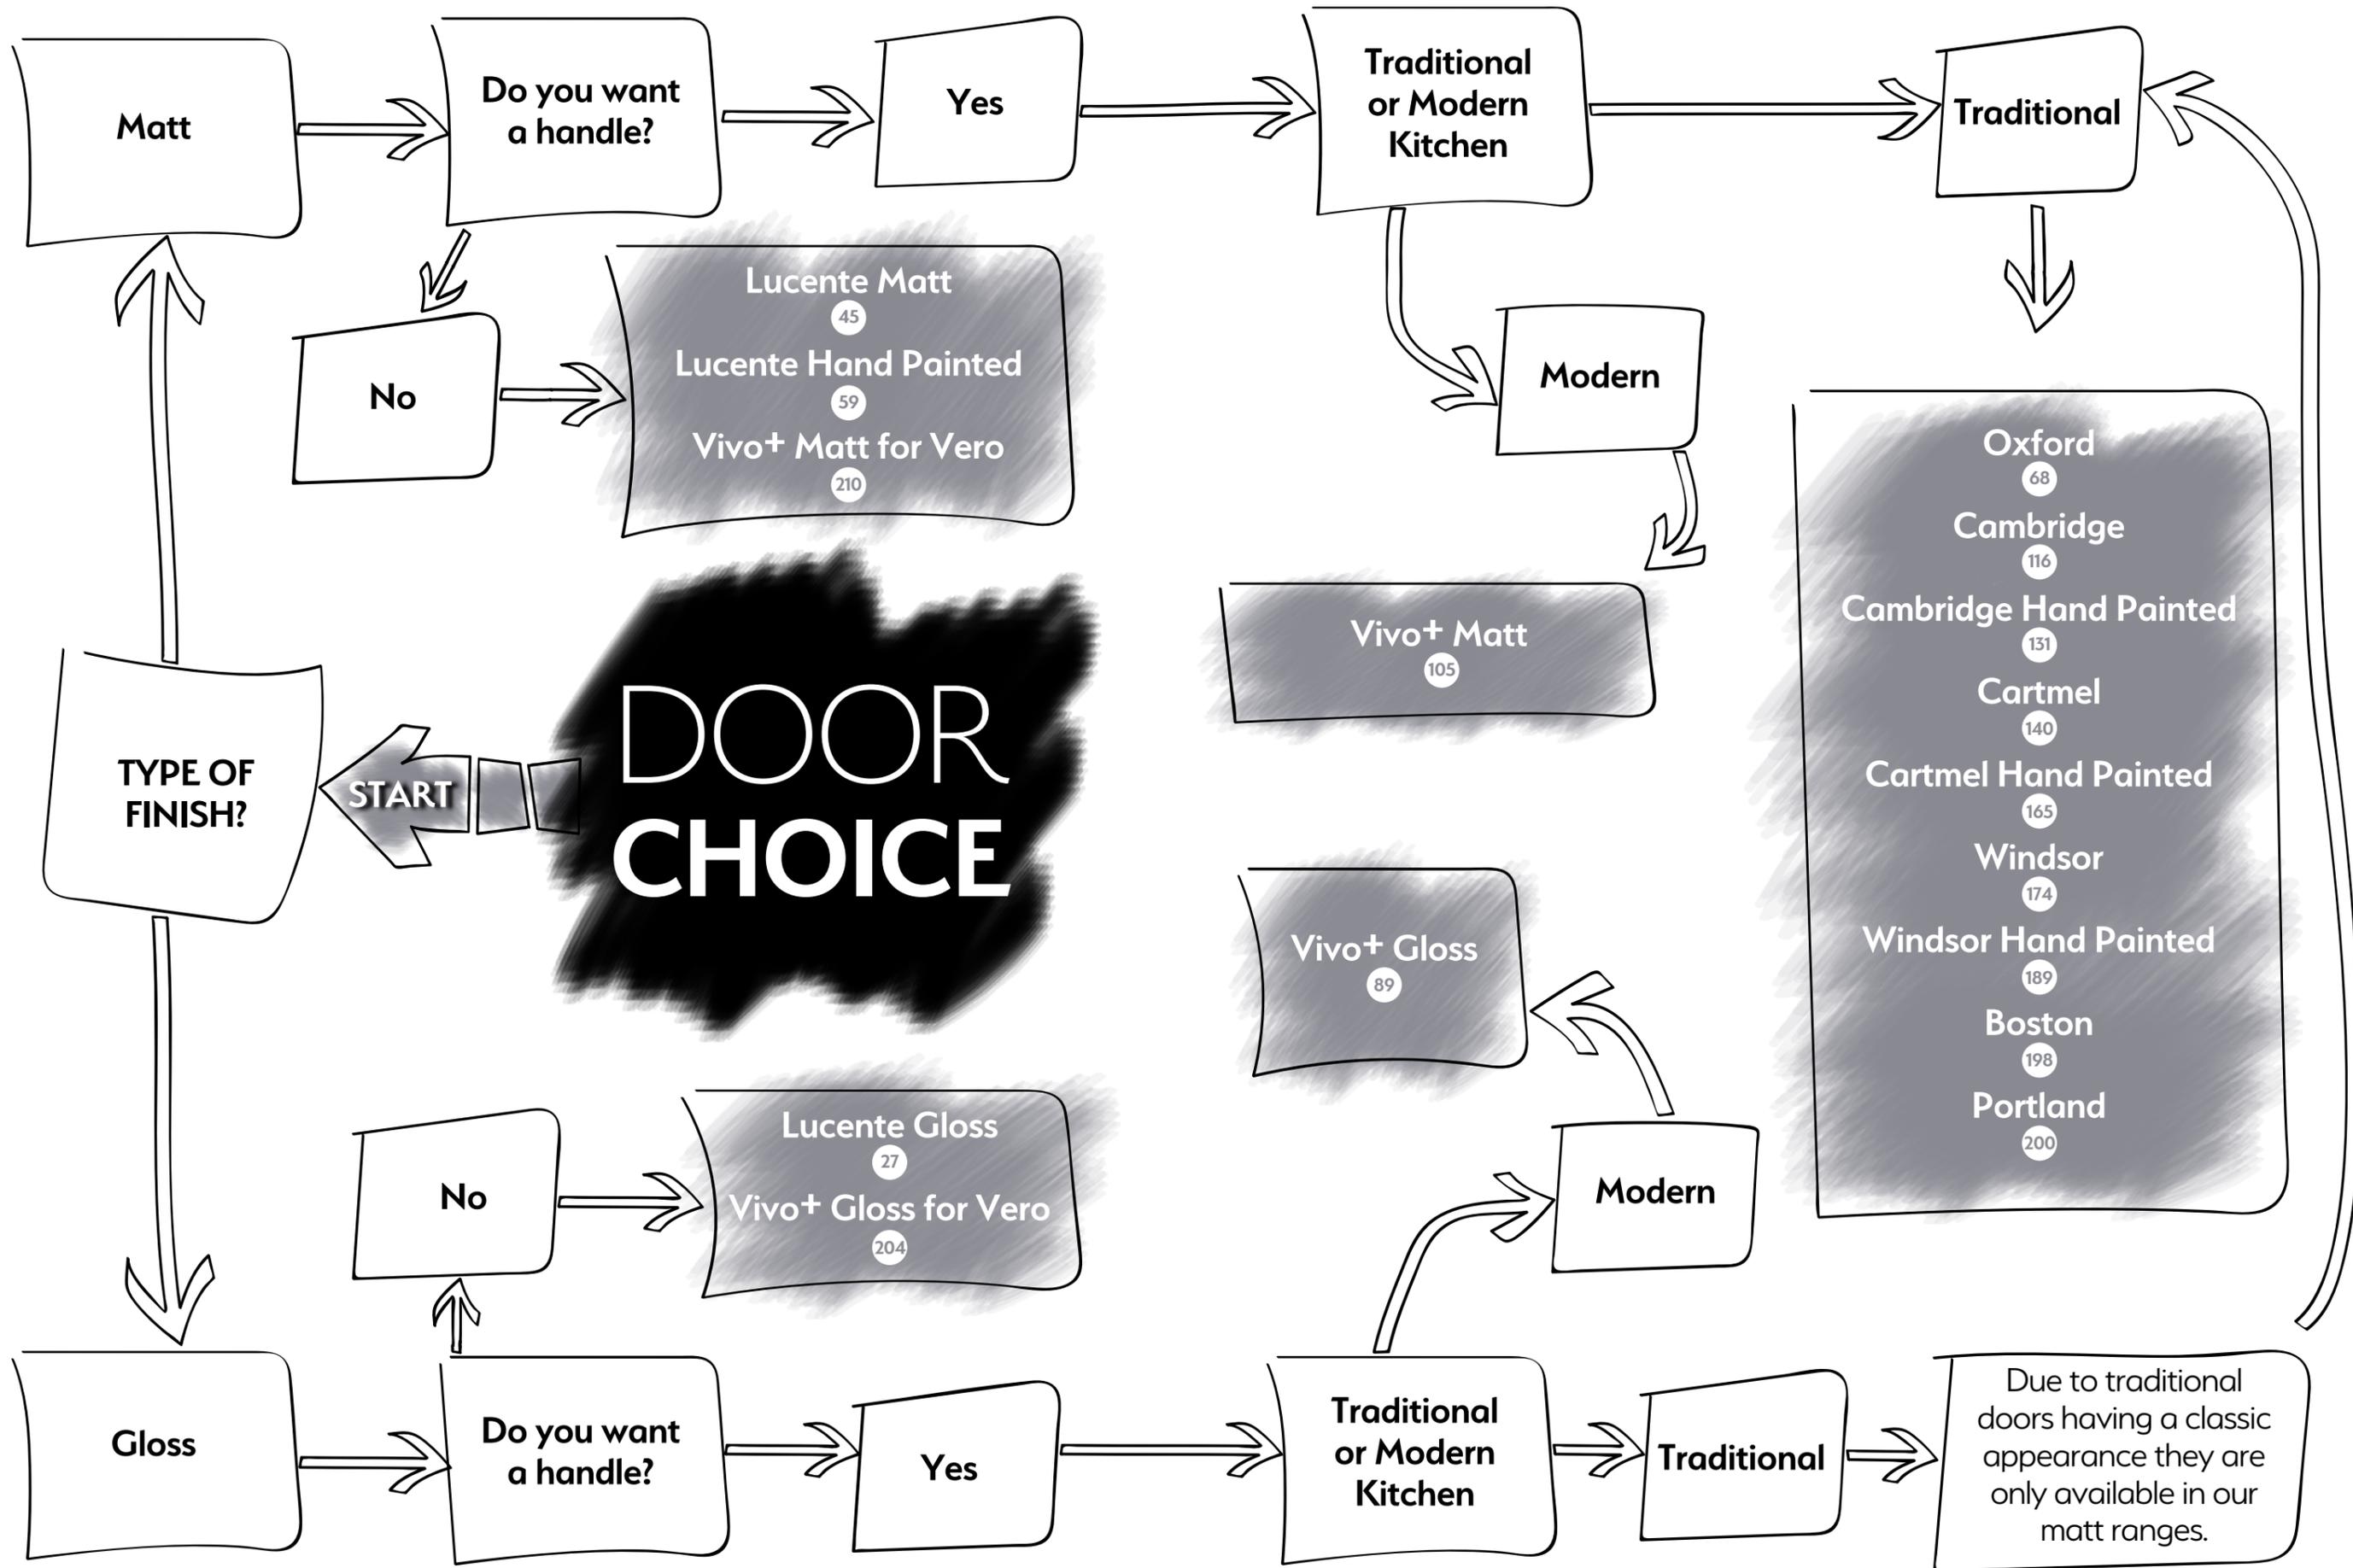

Drawer Widths

Standard drawer widths are 300-600mm but for a designer look consider using 800-1000mm wide drawer fronts combined with deep drawers for a simple and linear look.

LIGHTING

*Energy saving
LED lights*

Lighting in the kitchen is essential from both a task and ambience perspective. Food preparation typically takes place under wall cabinets where further illumination is often desirable.

Steina Kea LED

A classic light in the kitchen, the triangular styling of Kea is a timeless favourite in the UK. Use these typically underneath wall cabinets to provide additional task lighting.

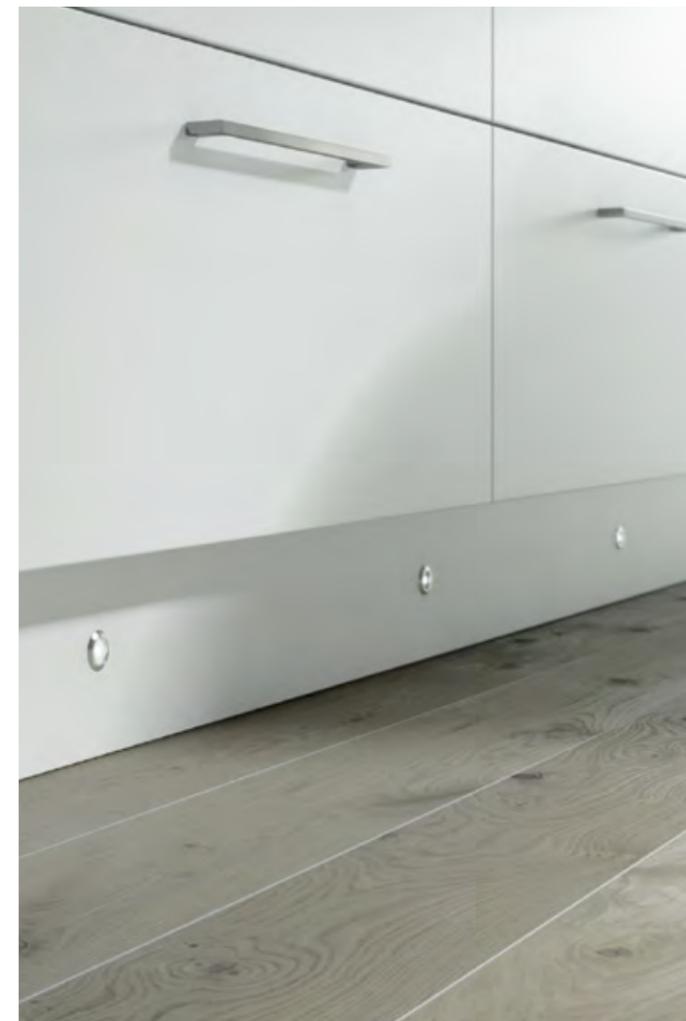

Steina Faro LED

Steina Faro lights are typically positioned subtly underneath wall cabinets. Their unobtrusive and minimalist design are a natural choice in contemporary kitchens and recommended as our brightest option.

Steina Quadro LED

The square design of Steina Quadro is a natural shaped partner for cabinets and is often used within glass units to create feature displays.

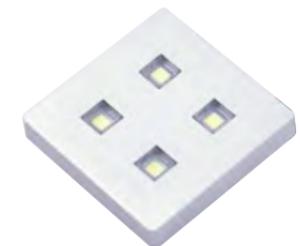

Plinth Lights

Add plinth lights to the base of your kitchen units to add subtle ambience to the room. Illuminate your kitchen at night solely with plinth lights to create a 'show house' effect. Choose from square and round designs.

Picka Plinth Round LED

Picka Plinth Square LED

Vista Flexible LED Strip Lighting

Flexible strip lighting can be cut to size and is commonly used underneath wall cabinets and worktops, or on plinths to create additional ambience.

Steina Downlight LED

The contemporary circular design of the Steina Downlight can be used under wall cabinets or within them to create a display unit.

Steina Downlight shown with a steel spacer

Surface Mounted Lights

Vectra & Stenza lights are typically positioned under cabinets and shelving for minimalist design & installation.

Steina Vectra LED

Steina Stenza LED

Steina LED Tube

Tube lighting maximises impact and is easily positioned under wall cabinets. Use a continuous line or around specific areas.

SINKS

Your kitchen sink is bound to be used almost everyday so make sure you choose carefully. From larger drying areas to practical half bowls and colour choices we know that the sink is another important piece in your Jigsaw kitchen.

BINS

Don't let your waste be an afterthought

A less glamorous product than others in the kitchen, the bin is often an after thought. However, integrated bins help to maximise kitchen floor space, simplify recycling and provide a tidy appearance.

Steel Waste Bin

A 12 litre capacity bin with a modern rounded design, this bin also opens as you open your kitchen door to minimise bending and stretching.

Pull Out Bin - Single

A 16 litre capacity bin offers ample space with easy access upon the door opening to make life that little bit easier. Suitable for cabinets 400mm or wider making it an easy inclusion in most kitchens.

Pull Out Bin - Duo

The duo bin has 2 compartments each with a capacity of 7.5 litres, ideal for separating waste or recycling. The duo bin is suitable for cabinets 400mm or wider making it an easy inclusion in most kitchens.

Recycling Bin & Tray - Trio

Our trio bin provides 3 cavities and 12 litre capacities in each to provide all of your waste options in one area. The bins and compartments for your cleaning products sit within a tray and fit 1000mm cabinets.

CUTLERY TRAYS

Add structure to your new drawers with a stylish cutlery tray. It's a small piece of a Jigsaw kitchen but one you won't want to live without.

Scoop Cutlery Tray 400 / 500 / 600 / 800 / 900 / 1000mm

Excellent Cutlery Tray 500 / 600 / 800 / 900 / 1000mm

EXCELLENT CUTLERY TRAY - 1000MM

DOOR LIFTS

Kitchen walls can be reinvigorated with the inclusion of both bridging units and bi-fold units. Jigsaw provide the mechanisms as well as the furniture to ensure your walls are a quality feature.

Classic Gas Lift System - Single Door

Gas lifts are typically specified on bridging units and keep your door open while you reach inside the cabinet. Listen for the satisfying noise as your door opens and stays open for your convenience.

Bi-fold Lift System - Bi-fold Door

Bi-fold lifts are used on bi-fold cabinets and provide a sleek contemporary finish and access to the entire area quickly. Soft close as standard.

Bridging Unit with Classic Gas Lift System
